

Jean VOGUET

« *l'Odyssee* »

**ACOUSMATIC
GEPHONIES
& HETEROTOPIAS**

EXPLORING (EXO)PLANETS THAT THE HUMANITY
MIGHT FIND AND LIVE IN ORDER TO SURVIVE.

« l'Odyssée » part 3

2016-2019

Station 13 - *work in progress*

Station 12 - 26:02

Station 11 - 24:06

Station 10 - 23:45

« l'Odyssée » part 2

2012-2015

Station 09 - 22:59

Station 08 - 25:40

Station 07 - 29:24

Station 06 - 22:09

« l'Odyssée » part 1

2009-2010

Station 05 - 16:02

Station 04 - 15:40

Station 03 - 18:24

Station 02 - 24:59

Station 01 - 19:58

An initiatory wandering punctuated by 18 Stations,
ecosystems with complex structures composed
of synthesized sound materials,
wich define a virtual & temporal mapping of time-space.

1986 Fondation DANAÉ - Pouilly / France
1985 IRCAM - Paris / France

Each Station contains various numbers of digitaly synthesised sound samples, using different softwares that are free and open source.

With a pilot MiDi, Jean VOGUET spatialise the diffusion of his pieces, by manipulating the intensity and the dynamic of the sound in real time.

The choice of the Stations from « *l'Odyssée* »

(more than 8.5 hours of music)

including how many pieces at a time for live concert

depends on the context and the nature of the event (place and time available)

and the spatialization setup (stereo, quadriphony, octophony ou seiziophony).
